

SKOOP combines the durability of Corian® Solid Surface with the touch of 3D texture and the beauty of restrained colour. SKOOP's smooth white tops are contrasted perfectly by the choice of tactile bases.

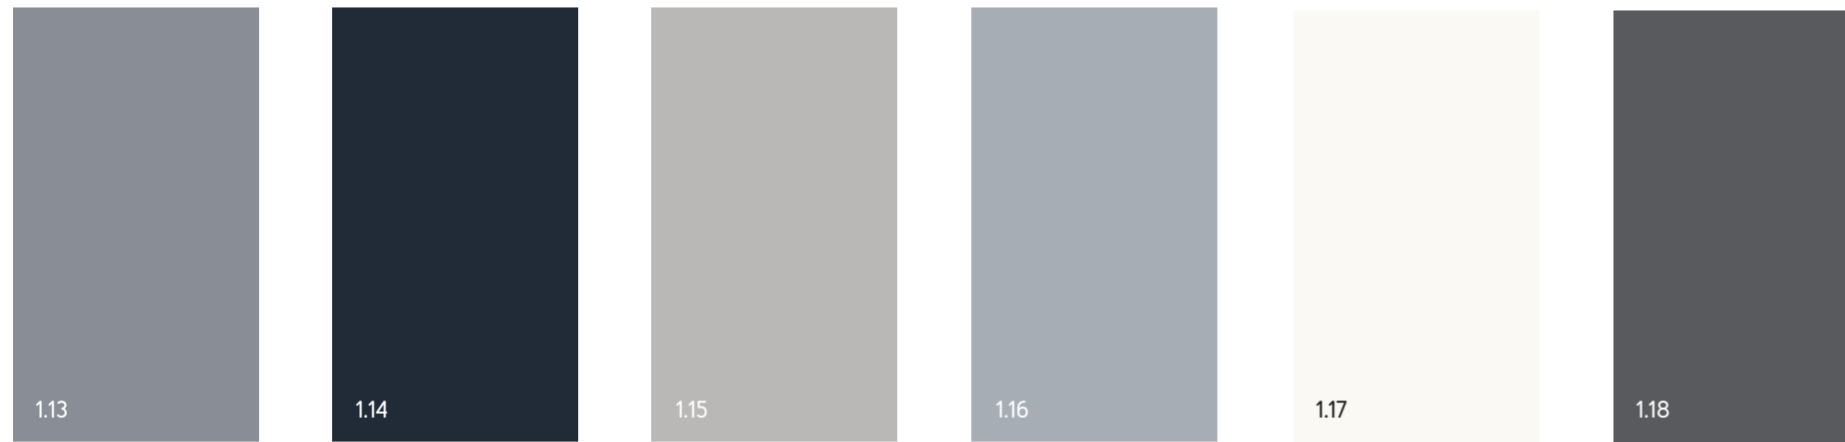

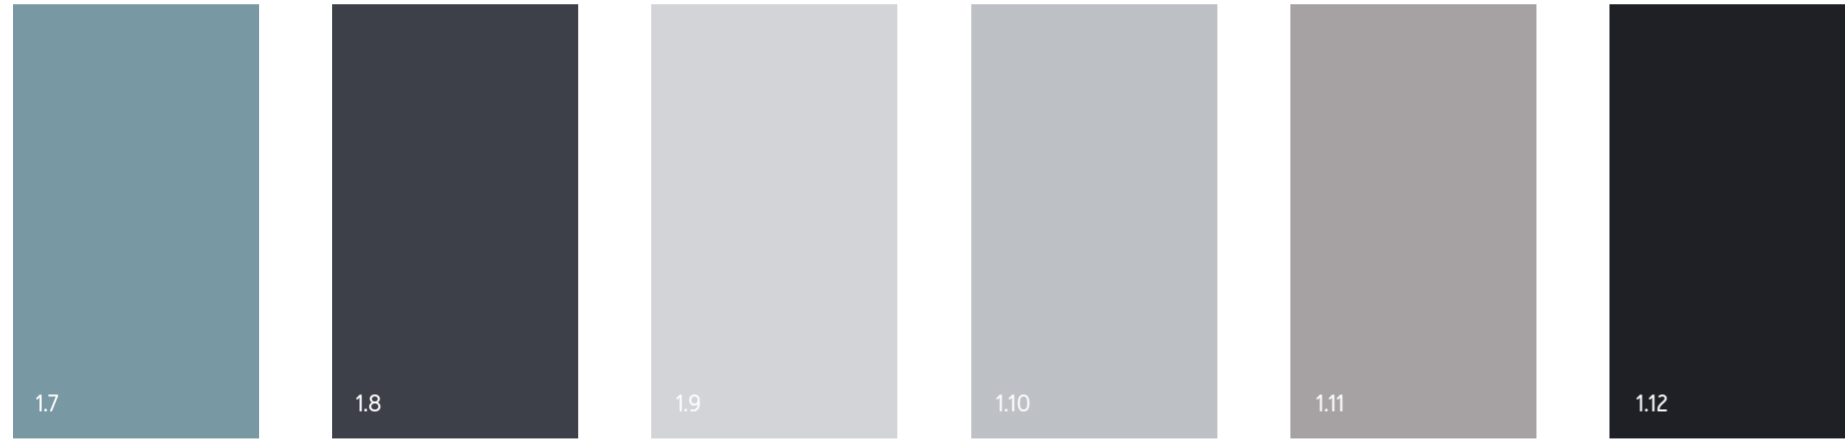

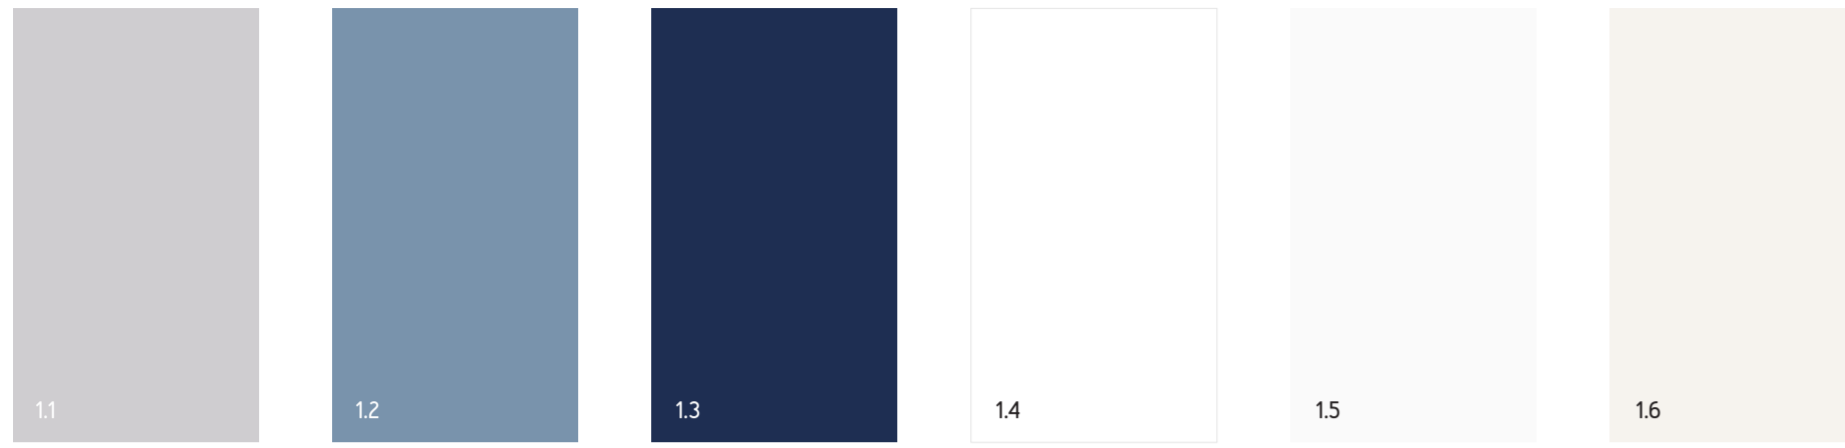

Choose from a range of customisations, including cable management, writing stands, and disabled access options.

SKOOP counter desks come in standard sizes up to 2.9M long. Bases are offered in a choice of moulded laminate finishes and soft-touch solid colours and topped off with Glacier white seamless Corian® Solid Surface.

# Solidkit®

All Solidkit® systems and desks offer complete design solutions. Endless possibilities can be configured to meet the needs of your project requirements, built and installed by our skilled craftsmen.
